letters@hindustantimes.com

NEW DELHI : Prime Minister Narendra Modi on Friday said India is set to achieve its targets under the Paris climate agreement well before the deadline while emphasising that behavioural change was the most powerful way to fight climate change.

Motherland, India... I dedicate this award to the glorious tradition of our land that has shown the way when it comes to caring for the environment," he said.

Modi said a close bond between nature and people was central to Indian culture and people of India were leaders when it came to caring for the environment.
